FOREIGN.

The steamship Caledonia arrived at London on the 19th ult., bringing dates from Liverpool to the 4th, and London to the 3d, from which we select the following items:

The Duke of Wellington completed the 74th year on the 1st, and gave a dinner on the occasion.

Richard Arkwright, Esq., the richest man in Europe, died recently at Derbyshire.

Ireland.—The affairs of Ireland are assuming a highly interesting and important character. The excitement on the subject of repeal runs exceedingly high, and added to the disaffection of the country in other respects, bids fair to blow up the flame of revolution in good earnest. The late repeal riots at Clones, the county of Monaghan, which were suppressed only by the interference of the military, have been followed by demonstrations in other places which look anything but peace and quietness. The doctrine of repeal is now openly pronounced as treason by a portion of the conservative press, and the strong opinion of Government is invoked for its suppression. Where these things will end, God only knows.

Greece.—We see it stated in a letter from Athens, that King Otho threatens abdicate his throne, unless the most potent sovereigns of Europe, who place him where he is, shall lend him money. He thinks it outrageous that they should expect him to govern such a people with an empty treasury, and with no means of replenishing it without oppressing the people.

A great anti-corn law conference was advertised to be held in London on the 9th May, to which deputies had already been appointed from all parts of The Three Kingdoms.

A Chartist meeting at Hull was recently dispersed by the authorities, and the orator on the occasion seized and bound over for trial on a charge of sedition.

A large number of tenants on the Blenheim estates, in Oxfordshire, had quitted their farms, and dissatisfaction among the tenantry of England, on account of the high rents, was growing daily more apparent.

Latest accounts from Naples state that the Vesuvius was again bleaching forth large quantities of flame and smoke. The Havre theatre was destroyed by fire on Friday night, the 28th ult when Mr. Fortier, the manager, who resided in apartments attached to the theatre lost his life.

A notary had fled from Orleans, leaving a deficit of 500,000 francs. He was supposed to have gone to England.

British Parliament.—Nothing of interest had occurred in British Parliament, except a debate in the House of Commons, arising out of Mr. Hume's motion for a vote of thanks to Lord Ashburton, in connection with the treaty of Washington. The motion brought up the ablest men on both sides of the House; but the subject has been worn thread-bare by previous discussion and its novelty has passed away. There were some able speeches and clever skirmishing.

Circassia.—The rumor heretofore given that Russia was preparing a great expedition against Circassia, is confirmed by further accounts. The Emperor, it is said, is determined not to protract this useless war much longer; and if the powerful expedition now on foot does not prove successful, he will acknowledge the right of the hardy mountaineers to govern themselves. Cotton was in active demand, though accumulated stocks had imparted some

dullness of tone to the market on the 3d. Still no abatement of prices was anticipated, the state of business in the manufacturing districts being encouraging.

The response of Mr. Van Buren to the inquiry whether he will support the nomination of the National Convention, provided it do not fall upon himself, is just what we expected it from him—an open, decided unequivocal, unconditional affirmative. No hesitation, no doubt, no lurking distrust of the democracy, either real or affected, is exhibited by him, but that perfect confidence which inspired the good man of old when he said—"Though he slay me, yet will I trust in him."—For this honorable confidence, in the name of the Democracy of the Bay State, we thank him.—*State Democrat.*

JOHN SMITH.—The Maryland Gazette contains a prospectus for the publication of a weekly paper to be entitled "THE JOHN SMITH." H. K. Gregg, who issues the proposals, says he shall advocate no political party, but pledges himself to the support of the "universal Smith family," the thirty thousand John Smiths, the Smiths in general, and all the Smiths' relatives, in fact the Great Smith Family of the universe to come to his support. They won't obey the call.—Some of them live where there are no postoffices some can't read, some are too poor to pay for a paper, and others too rich to care about reading at all.

SECOND VOLUME OF THE MAGNET, Devoted to the Investigation of HUMAN PHYSIOLOGY,

EMBRACING
CEPHOLOGY, ELECTRICITY,
PHRENOLOGY, GALVANISM,
PATHOLOGY, MAGNETISM,
PHYSIOLOGY, LIGHT,
PSYCHOLOGY, CALORIC,
NEUROLOGY, KIFE.

By La Roy Sunderland.

THE design of this popular and interesting work, is the investigation of all the laws which appertain to human life, and which are concerned in the production of those states of the mind called Somnambulism, Insanity, Dreaming, Second-sight; Somniphany, Trance, Clairvoyance, and various other mental phenomena, which have, hitherto, remained shrouded in mystery.

Its pages are enriched with essays and communications, detailing facts, illustrating the science of Cephalology, which teaches the influences and susceptibilities of the human brain, and the method of controlling its separate organs by Pathetism; together with such information as may assist in the most successful agent to Diagnosis—the delineation of character—and the relief of human suffering.

The second volume will be commenced in June, 1843, in large octavo form, and issued monthly, on the following TERMS.

I. Two dollars, in advance, will pay for one copy the year; or sixteen copies of any one number.

II. For six dollars, fifty copies of any one number; or four copies for one year.

III. For ten dollars, ninety copies of any one number; or seven copies for one year.

IV. For fifteen dollars, one hundred and fifty copies of any one number: or twelve copies for one year.

V. To the trade, they will be put at nine dollars per hundred, when one hundred copies are ordered at one time, with the cash in advance.

Agents must state, distinctly, what the money sent is designed to pay for; whether for an entire volume, or for so many single copies of one number.

As these terms are low, the publisher cannot doubt but agents will see the justice of giving special attention to what follows:

All payments must be received by the publisher before each number is sent out of the office.

All payments must be remitted free of postage, and in safety fund money, or its equivalent, in this city.

Agents must give particular instructions as to the manner in which they may wish each number forwarded.

Every Editor who shall give this Prospectus (including this paragraph) six insertions, shall receive The Magnet for one year from June, 1843, provided the papers containing this notice be forwarded, marked, to "The Magnet, New York City;" and provided, also, that these conditions be complied with before January, 1844.

A NEW AND ORIGINAL NOVEL.

BY PROF. J. H. INGRAHAM, Author of
"The Quadroon," "Dancing Feather," "Capt. Kyd," "Lafitte."

WILL BE PUBLISHED ON
20th March, 1843.

THE
GIPSEY OF THE HIGHLAND,
OR
THE JEW AND THE HEIR.

Complete in one volume in the uniform style of the brother Johnathan and New World Extras. Price 12 cents each or \$9 per annum.

The work, which is considered by the best judges, superior to any of the previous productions of this talented and popular American author is being printed in the same style of the New World and Brother Johnathan Extras, at the office of S. N. Dickson, so well known for the superiority of his style of printing: No expense will be spared by the publishers, Redding & Co. to render the appearance of the work all that it should be in view of its great merit and uncommon interest.

The scene of this latest of Professor Ingraham's Novels, is laid principally in the highlands of the Hudson, and the romantic scenes of that noble river are depicted with singular felicity in truly poets prose.

The following are the contents of some of the chapters, by which the reader may form a general idea of the work

Night in the Highlands—Kirkwood or the rich Miser—Paul Tathall—The hawk and Pet Rabbit—The Frigate—Duncan Powell—The Maid of Rock Hill—The Gazella—The storm—An adventure on the Hudson—The danger and rescue—Paul and the beauty of Rock Hill—Duncan Powell's daring leap—The interview and its results—The appearance of Paul Tathall and the description of the Maiden—Jealously awakened—Paul declares his passion—Its reception—The extraordinary character of Catharine Ogilvie—A parting scene—The meeting between Paul and Duncan—Their parting—A mysterious murder—The Gypsy and her lover—The doom of the victim—The dreadful end of the Gypsy mother—Our Hero's arrival in New York and his experience of the obliging character of a Hackney coachman, Paul's reception by his uncle His spirit, His subsequent career for two years, His downward course, He quarrels and leaves his uncle, The River Rover's Cub, The newly elected Coxswain, The lawless resolution of the band, Paul's character, His daring and tact.

From the perusal of the above, it will be seen that the Gypsy of the Highlands abounds in incident and adventure, and a perusal of the work itself will not only show this, but prove that a moral of the highest and noblest order is inculcated throughout:

Under all circumstances there can be but little doubt that the Gypsy of the Highlands will be more extensively read both in the North and South than any other American novel since Cooper.

Agents should send in their orders immediately as but a limited edition will be printed.

Editors of papers who will notice the above work in their papers and will send a copy marked shall receive a copy gratis. Address REDDING & Co. Publisher, 8 State st., Boston.

The whigs are to hold a convention in Jackson on the second Monday of this month, and the central committee of the late democratic convention been recommended the holding of other convention.

This is all right according to custom and usage, but it is doubtful whether either whigs or democrats from this section of the state will attend then.

The great difference between the nature of the business now springing into life throughout the country, and that done in the time of bloated currency, is that men now regulate their purchase by what they fairly calculate to earn—then they gauged their expenses by the amount of money they could borrow of the banks, or the quantity of goods they could obtain on credit. It needs no prophet to tell us which is the more healthy and hopeful state of things. [N. Y. Pleb.]

"Kiss me quick!" is the name of a new fashioned bonnet, worn by the ladies, somewhere and invented by somebody. The gentlemen find them very convenient, and the ladies exceedingly pleasant. The demand for them is becoming very great.—*Boston Atlas.*

RAN AWAY from the subscriber in the month of January last, a negro woman named Mary. Said woman is about 18 years of age, stout built and likely. I have reason to believe that she remained in this neighborhood for some time after she went away, but not having heard of her lately she may have gone off.

She took with her when she went away, a striped homespun dress, and two, calico dresses. One a red ground with small red spots, and the other a black ground calico. Whoever will deliver her to me or give me any information that will enable me to get her again shall be suitably rewarded. As I have some reason to suspect that she has been enticed away, I will if such is the case give a reward of fifty dollars for the girl, and such information in regard to the thief as will enable me to convict him.
